PRISONER EXPLAINS REASONS FOR ARREST

Charge Against Him is Said to Be "Conspiracy to Increase Wages."

WASHINGTON, Nov. 20.—President Compers of the American Federation of Labor,

after consulting members of the executive committee today telegraphed \$100 to Harry McKee at Porto Rico with the request that he use it for bail to obtain the release of Santiago Iglesias, who went to Porto Rico to organize a branch of the Federation of Labor in that island and was arrested immediately on landing.

Mr. McKee has received two letters from Mr. Iglesias, as well as a copy of a petition the latter sent to Governor Hunt.

Mr. Iglesias says in one letter that the charge against him is "conspiring for the purpose of increasing wages."

In the petition to Governor Hunt Mr. Iglesias says that before he left Porto Rico for the United States he made two appearances in court in the summer of 1900 and that finding that he was a marked man by the employers and could not procure work he came to the United States to support his family.

He says he never was notified directly or indirectly when he should appear in court again and did not violate his pledge to surrender when wanted.

He asks Governor Hunt's intercession to secure his release pending trial, pledging himself to remain in the island and appear in court any time ordered to do so.

BECKINRIDGE MUST VACATE

McIntosh's Democratic Attorney General is Ousted by the Court of Appeals.

FRANKFORT, Ky., Nov. 20.—The court of appeals today reversed the judgment of the circuit court, which sustained the decision of the state content board in giving the office of the attorney general to Judge Robert J. Beckinridge, and holds that Clinton J. Pratt of Hopkins county, the republican nominee, is the legal officer.

The decision of the court is final and directs that Beckinridge retire immediately from office. Beckinridge was on the democratic ticket headed by William Goebel for governor, two years ago, and Pratt was on the republican ticket, headed by W. S. Taylor for governor that year.

Justice Duffly delivered the opinion of the court, Judges Burnard, Durell and O'Rear, republican sympathizers, Judges Hobson, Palmer and White, democratic, dissent from this decision.

Judge Beckinridge said recently if removed that he would become a candidate for the democratic nomination for governor two years hence.

This case is the last of the contests growing out of the election of 1899. All of the republican candidates for state office with the exception of Judge Pratt appealed immediately from the decision of the state content board and a democratic court of appeals sustained the seating of the democratic claimant, Pratt, waited until the judicial completion of the higher court changed and then filed an appeal.

Reciprocity Convention Asks for Department of Commerce.

TRADE RELATIONS WITH NORTH COLONY

Importance of Friendly Basis of Intercourse with Canada Emphasized. Diving to Heavy Traffic to and Fro.

WASHINGTON, Nov. 20.—The National Reciprocity convention, which began yesterday, finished its work tonight and adjourned without delay.

Several important resolutions, embracing the views of the convention on reciprocity and other matters, were adopted. They provide as follows: Resolved: 1. That this convention recommends to the maintenance of the principle of protection for the home market and to open up by reciprocity opportunities for increased foreign trade by special modifications of the tariff, in special cases, but only where it can be done without injury to our home interests of manufacturing, commerce or farming.

2. That in order to ascertain the influence of any proposed treaty on our home interests this convention recommends to congress the establishment of a reciprocity commission which shall be charged with the duty of investigating the condition of any industry and reporting the same to the executive and to congress for guidance in negotiating reciprocity agreements.

3. That this convention recommends and requests of congress that a department be created to be called the Department of Commerce, and that it shall be a member of the president's cabinet.

4. That a reciprocity commission be created as a bureau of this department.

Relations with Canada. The session of the reciprocity convention tonight was devoted mainly to the question of reciprocal trade relations with Canada.

Several papers were read, after which some routine business was disposed of and the convention finally adjourned. The views of the Boston Chamber of Commerce on the subject of reciprocity with Canada were presented in a paper by George H. Coppins. There was, he said, no logical escape from the conclusion that Canada should be included in any general scheme for reciprocity.

Trade Relations Urged. Hon. John Charlton, a member of the Canadian parliament, spoke in favor of some reasonable trade concessions to meet the liberal treatment accorded the United States by Canada.

Canada, he said, wanted free trade and reciprocity. If the United States wanted to retain the trade with Canada it now holds, it must give some adequate and fair concessions for the privilege it now enjoys.

William Irvine of Chippewa Falls, Wis., largely identified with the lumber interests, discussed the attitude of the lumbermen in the question of reciprocity with Canada.

He believed that the lumbermen of the United States would voluntarily agree to the same concession proposed by the Canadian high joint commissioners, provided those who are engaged in the lumber business in the United States would agree to a similar reduction of the duty on their products.

He also discussed the preferential duty given by Canada on goods imported from Great Britain and in concluding said: "The reciprocity with Great Britain."

"Before any negotiations for a reciprocal trade agreement with Canada can be considered the government of that country should take steps through its legislative body to place the products of the United States and of Great Britain, whether imported under the provisions of a treaty, upon an equality in its domestic market."

William C. Barker of New York offered the following resolution, which was adopted: Hon. W. J. Buchanan, Pan-American Congress, Mexico City, The National Reciprocity congress in Washington sends cordial greetings to the congress in Mexico and expresses the hope that the work of the congress will lead to more intimate commercial relations between all of the American republics.

THEODORE SEARCH, Chairman. Judge Seabury of Indianapolis offered resolutions favoring subsidizing of American shipping and construction of the isthmian canal, but the convention was not disposed to take up the question and Mr. Seabury, in the interests of peace and harmony, withdrew the resolution. This action was the cordial acknowledgment of President Search, who said he felt the meeting had accomplished the object for which it had gathered and to have added anything to that would have been a mistake.

The convention then adjourned. WASHINGTON, Nov. 20.—A representative committee from the national reciprocity convention today submitted to President Roosevelt the resolution adopted by the convention. The president received them cordially. He said in general terms that he had given considerable thought to the subject and that he hoped that his attitude would be satisfactory to the convention.

Over Twelve Men Killed and Thirty Are Wounded in the Affray—United States Gunboat Stays Neutral.

NEW YORK, Nov. 20.—The police of Hoboken, N. J., are investigating today the death of 8-year-old Emeline Dale, who died yesterday of strychnine poisoning in Hoboken. The child was the daughter of Harvey S. Dale, manager of a life insurance agency in Chicago.

Mrs. Dale arrived here Saturday. According to statements made by her she had been feeling well and had been taking strychnine tablets. Monday night, she said, she felt the tablets on a dressing table, and while she was asleep her child arose and ate three of them, thinking they were candy. "Her cries awoke me," continued Mrs. Dale, "and I summoned Dr. Kudlich."

Dr. Kudlich, who saw the child before and after death, said: "I was summoned to attend the child at midnight and remained with her two hours, when she had completely recovered and was frolicking around the room. At 3 o'clock I was told over the telephone that the child was dead and I again went to the hotel."

"Mrs. Dale told me that shortly after I left the child's hands and feet began to get cold and that death soon followed."

Mrs. Dale was a Miss How of New York City. Her father was a wealthy man who left an estate from which Mrs. Dale received an income of \$500 a month.

Project to Erect Skyscraper Meets with Opposition in Some Quarters.

LONDON, Nov. 20.—The action of an Anglo-American syndicate in applying to the London county council for a 499 years lease of a site on the north side of the Strand for the erection of an office building on American lines, to cost £2,000,000, has caused much comment and is discussed from various points of view.

Share William Waldorf Astor's views, as expressed in today's issue of the Pall Mall Gazette, that the syndicate's project is "an addition to that conglomerate of architectural chaos which is modern London."

The Pall Mall Gazette fears the mammoth building will deform the new thoroughfare. The majority of the business community, however, share the views of the London Times, which says: "We are far too slow in meeting the wants of the enormous population, we are far too much given to muddling along with timid extensions of methods essentially antiquated."

Dr. Krause was remanded for a fortnight in £4,000 bail.

Germany Will Not Give Up Easily. NEW YORK, Nov. 20.—Germany is not going to sit down quietly under the loss of its commerce, says the Tribune's London correspondent. The merchants of the great industrial district of the Rhine have determined to leave no stone unturned to meet American competition. The first step they have decided upon is the canalization of the Moselle and Saar, by which means they hope to lessen the cost of transport to the coast. The scheme is to cost 70,000,000 marks and will take a few years to complete.

Death Reports Inaccurate. NEW YORK, Nov. 20.—According to the Tribune's London correspondent, the Daily News endeavors to show that the government's monthly returns, which purport to give an accurate record of the deaths in the South African camps, are untrue. An examination of the blue books has, it is reported, resulted in the disclosure that the deaths not accounted for in three monthly returns, which it is estimated amount to 1,500.

Over Twelve Men Killed and Thirty Are Wounded in the Affray—United States Gunboat Stays Neutral.

WASHINGTON, Nov. 20.—The confirmation of the reported capture of Colon by the Colombian liberals caused a decided commotion in the State and Navy departments today.

The news of the capture of Colon by the rebels last night, while all business is suspended, transit is not interrupted and American life and property are safe and not in danger.

Taken altogether, these dispatches were regarded by the officials here as indicating a lack of purpose on the part of the liberals to interfere with transit across the isthmus. It was felt that the brief interruption caused by the capture of Colon was the cutting of the telegraphic wires was nothing more than a temporary device to prevent the government from burying reinforcements by rail to Colon.

The officials find support for this belief in the fact that communication was reopened across the isthmus of the same day that Colon was captured. Still, as a result of the consultation today, it was resolved to take no chances of an infringement of the treaty rights of the United States.

Therefore Dr. Hill called Consul General Gunder to notify all parties who are engaged in mooring or unmooring of vessels at Colon that the isthmus was also directed to consult freely with Captain Perry, the commander of the United States battleship Iowa, now lying at Panama.

Captain Perry to Land Marines. Then Captain Perry was called by Secretary Long to land marines if necessary for the protection of free transit across the isthmus in accordance with the treaty rights and obligations of the United States.

At the same time Captain Perry was enjoined to gain prestige among those who have liberal tendencies. Many of the merchants at Colon are liberal sympathizers and the success of the insurgents may attract their aid.

It was said that no information had been received regarding fighting at Panama and it was believed there had been none. Mr. Barviel, head of the west coast department of the Flint, Eddy & American Trading company, today received a letter from his correspondent in Panama, dated November 13, which contained the following review of the political situation: "Ecuador is absolutely neutral, but Salvador has taken a position favorable to the revolutionists and is furnishing them with war supplies and a steamer, which is of no small consequence to this government (Colombia), which possesses only a small and old ship on this side. If all that is said or rumored is true we shall soon have war."

Alban Receives Himself. Dr. Restrepo, head of the Colombian revolutionary junta in this city, tonight gave out a statement, in which he said: "As reported, General Alban, with 1,100 men and several field pieces, has started to attack our forces, now entrenched at Chorrera, fifteen miles from Panama. We have 2,000 men there and according to number, we might be expected to defeat General Alban. Yet he is confident he can rout us. His confidence is based on the belief that our force, under General Benjamín Ferrer, with General Lugo in immediate command, is poorly armed and equipped. Therein lies the trap. We have been sent from New York within the last three months. We have artillery also. General Alban will find he has made the mistake of his life in attacking us."

"We firmly believe that within two days Panama and the rest of the isthmus will be in our hands. We spread reports that we lacked rifles and that we had no ammunition and General Alban believed them."

News has been received by Dr. Restrepo that the Colombian revolutionists have purchased a gunboat of 1,000 tons displacement that had been built for Salvador. Besides this vessel the insurgents have two other gunboats. Dr. Restrepo says the boat recently purchased is armed with eight breech-loading rifles of two miles' range and two Gatling guns.

Remittance to Consulate Fund. WASHINGTON, Nov. 20.—The secretary of the treasury has received through the mail from a person whose name is unknown a draft for \$5,750, with the statement that it is the amount which should have been paid the isthmus for two years' payment year ago, with interest to date. The letter is signed "E. O." The money will be deposited to the credit of the consulate fund.

Lillian Burkhardt, One of the Best Known Artists on the Vaudeville Stage, Says DR. BULL'S COUGH SYRUP Cures Her Coughs and Prevents Colds.

MISS LILLIAN BURKHARDT. Philadelphia, Sept. 10, 1901. "Gentlemen:—When I first entered my professional career I had trouble with my throat and voice. I could not find anything to cure me until my doctor recommended 'DR. BULL'S COUGH SYRUP.' Since that time I have used it exclusively, and am happy to say that I am perfectly free from all coughs and colds, and I am never troubled with hoarseness, nor with anything of the kind that I have to play in two performances each day. There is no doubt but it is the greatest cough medicine ever discovered. I find some who mix with drug gists who try to sell me a substitute, but I always insist on 'Dr. Bull's.'"
